

LETTERS TO SANTA QAL WORD IDEAS

Want to make your own unique Christmas-inspired word quilt? We've pulled a version that the Moda team thought captured the season, but that doesn't mean you have to do the same words! Below is a list of Christmas and winter themed words, organized by how many letters are in each word. Whether you want to totally make your own design, or want to substitute a few words in the quilt Moda is making, this is a great starting point for what to pick.

TIP: Most words on this list can be made larger by making plural (Bow > Bows) or adding -ing (Twinkle > Twinkling).

NOTE:

In the few phrases with spaces (ex. HO HO HO) we did not count the spaces in between. When we designed our quilt at Moda HQ, the pattern letters made more visual sense all running together without a space (ex. HOHOHO) because we have every block on the quilt filled with either a letter or a filler block. Feel free to add a space back in, just make sure to account for it in your quilt layout!
